

Trident Trust has provided high quality corporate services to businesses in the global financial sector for more than 35 years.

Whether moving a business to Luxembourg, establishing a start-up or simply setting-up a subsidiary, we can provide practical, efficient and reliable support from start to finish. We enable our clients to focus on their business, while we take care of the administration.

Our services include:

- Incorporating and domiciling a Luxembourg company
- Accounting, VAT compliance, tax returns, payroll processing and secretarial services
- Provision of nominee shareholders if required
- Provision of directors if required, including CIO and CFO

Luxembourg: the First Choice for Fintech

Luxembourg's combination of financial and information technology expertise makes it a compelling location for existing and new Fintech businesses. Well known as one of the world's most established, experienced and prestigious financial centres, Luxembourg also has one of the best pools of data centres in the world, with excellent connectivity, both nationally and internationally, with all major host centres and internet hubs.

Businesses such as Amazon, PayPal, Apple iTunes, Skype and PayCash have established a major presence in Luxembourg to benefit from the advantages it offers:

- **Access to Tier IV Data centres** – Luxembourg hosts 40% of Europe's Tier IV data centres
- **An international network hub** in the middle of the EU, with excellent data and transport connectivity, and low latency to the major European markets
- **A skilled multinational workforce** – businesses are able to make use of a highly skilled and experienced workforce drawn from all around the world
- **A highly stable political and economic environment**
- An excellent **tax treaty network** – the tax framework is considered to be among the most stable and rewarding in Europe for companies, their shareholders and their employees
- **Confidentiality** through an established, **well-respected law on the protection of personal data**

Dedicated Fintech Services

Trident Trust has developed dedicated services for Fintech clients wishing to locate their business in Luxembourg. Perhaps you wish to open your first European office to develop your product or service, hold your IP, or open a sales office. Trident Trust can assist you in dealing with the Luxembourg requirements of operating a Fintech business in Europe.

- Expert knowledge of the Luxembourg regulatory environment regarding data storage and protection, information security, intellectual property holding structures and related tax compliance
- Experience negotiating with and managing service provision to Fintech companies including providers of SAAS, IAAS, data centres, law firms and accounting firms
- Information Systems Security Management support: legal and regulatory compliance; risk analysis; development of information security policies; disaster recovery and business continuity planning
